WELCOME TO SBS COUNCIL

Health education has evolved into health promotion. Health education is any combination of learning experiences designed to facilitate voluntary actions conducive to health. Health promotion is the combination of educational and environmental supports for actions and conditions of living conducive to health, thereby including health education. four other main developments are relevant: the need for planning (the PRECEDE- PROCEED model), the importance of evaluation, the use of social and behavioral science theories in the development of health promotion interventions (the Intervention Mapping process). Finally, recent developments in information technology (e.g.. computer tailoring) and their effect on health promotion are presented.

6. MEDICAL PRACTICE

[2406] — Right to practise — Qualification — Holders of Diploma in Community Medical Services in West Bengal — Held, entitled to be registered in State Medical Register for practice in allopathic medicine to treat common diseases among rural population — Also entitled to prescribe medicines and issue sickness and death certificates, such right being imbibed in the right to treat — Bengal Medical Act, 1914 (6 of 1914). Ss: 18 and 15

The relevant portion of Notification No. 1076-Medical dated 17-5-1915 issued by the then Financial Department, Government of Bengal read as hereunder:

In view of the ruling in *Mukhtiar Chand (Dr) case*, (1998) 7 SCC 579, there is no bar to register the appellant holders of "Diploma in Community Medical Services" in the State Medical Register.

Further, since the appellants are validly holding right to treat certain diseases their right to issue prescriptions or certificates cannot be detached from their right to treat. Such right to issue certificates or prescriptions is imbibed in the right to treat. One cannot and shall not be separated from the other. Once the right to treat is recognized, then the right to prescribe medicine or issue necessary certificate flows from it. Or else the right to treat cannot be completely protected. Hence, even assuming Notification No. 1076-Medical dated 17-5-1915 issued by the then Financial Department, Government of Bengal is not there, still the appellants' right to prescribe medicine cannot be denied. (Paras 13 and 7)

Therefore, the respondents shall make necessary arrangements to include the names of all the diploma-holders concerned in the State Medical Register for the limited purpose indicated therein within a period of six months from today. (Para 14). *Subhasis Bakshi v. W.B. Medical Council*, (2003) 9 SCC 269; AIR 2003 SC 1563; (2003) 3 SLR 138; (2003) 2 CHN 138(SC Supp).
